

Mass Communication Division Call for Abstracts

Communication Science - Evolution, Biology, and Brains

Pre-conference to the 2013 Conference of the International Communication Association

The goal of this pre-conference is to bring together scholars who are working across sub-fields of communication studies using evolutionary theory, neuroscience and biological measures to address core questions in communication studies.

DEADLINE

To submit, please e-mail a PDF version of your abstract to conference@medianeuroscience.org before 23:59 EST, January 4, 2013. In your email please include the following information: Author names, email addresses, institutional affiliations, and short description of author expertise.

VENUE

The preconference will take place at the conference hotel in London
